

COVID-19 UPDATE

WE ARE OPEN.

At GB Customs the safety and health employees and our customers is our highest priority. We will follow the guidance of the CDC and local public health officials as we adhere to new operating procedures that limit personal contact and protect our teammates and customers, allowing us to continue to Restore the Rhythm of Your Life.

We have a duty to ensure that cars – and people’s lives – continue running. We understand that our customers need reliable transportation to get to important doctors’ appointments, shop for groceries, pick-up medication at pharmacies, and handle the daily activities that bring them health and security. We also support our employees as they try to make a living, put food on their tables, pay rent and have a sense of safety and security.

GB Customs has implemented a range of protective measures and adjusted our operating processes to avoid the spread of COVID-19 among teammates and customers. A few examples include: mandatory safety training for all teammates, strict social distancing guidelines, mandatory processes for disinfecting centers multiple times daily, disinfecting customer vehicles at drop-off and sanitizing every vehicle with disinfectant cleaners before pick-up or delivery, and the use of technology to limit personal contact. We have modified our repair process from drop-off to delivery to ensure that teammates and customers are interacting as little as possible.

Together we will get through this. God Bless!
